

Cardiovascular

OTC Anti-hyperlipidemics

Omega-3-Acid esthers (Lovasa Fish Oil)

Niacin (Niaspan)

OTC Antiplatelet

Aspirin (Ecotrin)

Diuretics (In order of decreasing diuresis away from the glomulerus)

Osmotic Mannitol (Osmitol)

Loop Furosemide (Lasix)

Thiazide Hydrochlorothiazide (Microzide)

K Sparing & Thiazide

Triamterene & Hydrochlorothiazide (Dyazide)

K Sparing Spironolactone (Aldactone)

Electrolyte Replenishment

Potassium Choloride (K-Dur)

Lower blood pressure

Alpha-1 Antagonist (blocker)

Doxazosin (Cardura)

Alpha-2 Agonist

Clonidine (Catapres)

Beta Blocker (1st Gen) nonselective (beta-1 (heart), beta-2 (lung))

Propranolol (Inderal)

Beta Blocker (2nd gen) only beta-1

Atenolol (Tenormin)

Metoprolol tartrate (Lopressor) shorter acting BID

Metoprolol succinate (Toprol XL) longer acting QD

Beta Blocker (3rd gen) beta-1, beta-2, vasodilator

Carvediol (CoReg)

Angiotensin Converting Enzyme Inhibitors (ACE Inhibitors)

Enalapril (Vasotec)

Lisinopril (Zestril)

Angiotensin II Receptor Blockers (ARBs)

Losartan (CoZaar)

Olmesartan (Benicar)

Valsartan (Diovan)

Calcium Channel Blockers (CCBs)

Non Dihydropyridines

Affects cardiac conduction and cause vasodilation

Diltiazem (Cardizem)

Verapamil (Calan)

Dihydropyridines (only vasodilation)

Amlodipine (Norvasc)

Nifedipine (Procardia)

Vasodilator

Nitroglycerin (NitroStat)

HMG CoA Reductase Inhibitors

Atorvastatin (Lipitor)

Rosuvastatin (Crestor)

Fibric Acid Derivative lowers triglycerides

Fenofibrate (TriCor)

Anticoagulants

Parenteral

Enoxaparin (Lovenox)

Heparin

Enteral

Warfarin (Coumadin)

Dabigatran (Pradaxa)

Antiplatelet

Clopidogrel (Plavix)

Cardiac Glycoside

Digoxin (Lanoxin)

Anticholinergic

Atropine (Atropen)
